HOUSING: Probe Expected

Possibility that Congressman Jack Anderson, representative of this district, will make a first-hand investigation into the Peninsula housing problem was seen today in an announcement from his San Jose office that he will arrive in April to participate in a House Naval Affairs Committee investigation of "vice and other conditions in San Francisco."

Said the announcement: "One of the principal issues will be housing, and the Bay Area will come in for considerable scrutiny in this regard, being considered in Congress as one of the nation's five most crowded metropolitan areas."

The controversy between Langdon Post, director of Federal Public Housing Authority in San Francisco, and P. R. Blythe, executive-secretary of the South San Francisco Housing Authority, already has been referred to the congressman. Post has demanded Blythe's removal from office.

Food supply, health, sanitation and educational facilities will be included in the investigation.

Stanford Offers Business Course

STANFORD UNIVERSITY—To retrain business and professional men for supervisory positions in war industries, the Stanford War Training Office is offering a free, 10-week course in war industry management practices opening Apr. 5 on the university campus.

Information regarding the free course, which will be given on the full 40-hour week schedule, may be obtained from the Stanford Graduate School of Business, which is in charge of the training.

R.C. Motorcycle Crash Kills War Worker, Injures Woman Rider

One man was dead today and a woman was in a San Mateo hospital as the result of being thrown off the motorcycle they were riding on Union Ave., Redwood City, Monday at 4:05 p.m.

Dead is Clarence Svacina, 25, 1510 Kentfield Ave., Redwood City, a welder at Western Pipe & Steel Co., South San Francisco.

Injured is Mrs. Genevieve Purser, 26, 302 Park Ave., Redwood City. She incurred a back injury.

The motorcycle, operated by Svacina, ran off the road on Union Ave. about half a block north of Woodside Rd. and continued in a straight line for 85 feet before Svacina lost control and the riders were thrown off. The motorcycle continued on for about 15 feet, coming to a stop in a dirt mound. Svacina and possibly Mrs. Purser were thrown against a telephone pole, Redwood city police believe.

Mrs. Christina Rasmussen, 1641 Union Ave., told police the vehicle was going at a high rate of speed.

A nick in the telephone pole led police to believe a pedal on the motorcycle struck the pole, causing Svacina to lose control. No explanation could be given as to why the motorcycle had been driven off the road.

Svacina died at 10:55 p.m. Monday at a San Mateo hospital, where he was taken by ambulance. He never regained consciousness after the accident. A coroner's autopsy today showed that he died of a ruptured liver and internal injuries, according to Dep. Coroner Lewis Franklin.

Svacina had lived in Redwood City two years, coming here from Rice Lake, Wis. He lived less than two blocks from the scene of the accident.

He was the son of Mr. and Mrs. Joseph Svacina, and brother of Reynal, Donald, Lester, Aloys, Vivian and Alverta Svacina, all of Rice Lake.

RED CROSS: Finances Explained

Those who wish to contribute to the 1943 War Fund drive but have not been contacted by volunteer workers were assured today by Mrs. William A. Baxter, publicity chairman, that volunteers will call within a short time to collect the donations.

However, Mrs. Baxter pointed out, those who do not expect to be home when the workers call or who expect to be out of town during the rest of the drive may contribute by mailing checks or money orders made out to American Red Cross, to chapter headquarters on Broadway, Redwood City. Those living within the Menlo Park - Atherton branch area may mail their checks to their drive chairman, Mrs. William J. Mahaney, 132 Tuscaloosa Ave., Atherton.

In the meantime, national headquarters has issued the following information concerning the financial side of American Red Cross:

"All Red Cross funds are voluntary contributions, although the Red Cross does at times distribute relief supplies purchased by the government with federal appropriations.

"All Red Cross accounts of the national organization are audited by the War Department and a report, copies of which are available to the public, is submitted annually to Congress by the secretary of war. Each chapter is required to make periodic audits as well.

"The Red Cross War Fund is budgeted by the needs of local chapters—an allotment of $45,000,000—and the needs of the national Red Cross—estimated at $100,000,000. The quota from the Redwood City-Menlo Park-Atherton area is $27,600. More than 65 per cent of the total in the national Red Cross account already has been budgeted for direct national service to the armed forces.

"The $100,000,000 for national needs will be made up of $80,000,000 from the 1943 War Fund and a balance of $20,000,000 from the first war fund drive, a year ago.

"It is necessary to have a certain percentage of the workers always on call and to have specially trained workers. Such special training cannot generally be found among volunteers. As of Dec. 31, 1942, the number of employes of the national Red Cross is 9,677, of whom 1033 are on the regular pay roll. The remainder are emergency personnel.

"The executive scale of salary is below that of commercial organizations and on a par with that of other social service organizations. The clerical and stenographic scale is comparable to the rates usually paid in the city employment.

"The general officers of the chapters are paid no salary, although many chapters employ executive secrearies or social service workers and technicians."

Redwood City Chapter, however, has no paid workers, and the various services maintained by the chapter are carried on by volunteers, Mrs. Baxter points out.

"The 1943 War Fund goal to be reached by this chapter is very important in order to carry on our work," Mrs. Baxter said. "We want to go over the top. Will you help us? Give as much as you can—double what you gave last year—for our needs and the national needs have doubled."

County Executive's Secretary Resigns

Lawrence Wallace, who succeeded Cpl. William Michel as secretary to County Executive Frederick Peterson, has resigned to take a war industry job in South San Francisco, Peterson told reporters Wednesday. Wallace's place is being filled by Miss Helen Sharp of San Carlos, former employe of County Recorder T. Clark Rice.

'Random Harvest' Starts Sunday

Greer Garson essays her fourth British role in an American film in "Random Harvest," the adaptation of James Hilton's best-seller of the same name, which opens Sunday at the Fox Sequoia Theater.

It was as the young wife of "Mr. Chips" in "Goodbye, Mr. Chips" that Miss Garson made her bow before the screen public. She received ovation for her work in the film, and became one of those rare overnight Hollywood stars. She carried on the English tradition this time in a period antedating the "Chips" era, in "Pride and Prejudice." Afterwards she did two American parts, the role of Mrs. Gladney, Texas crusader for homeless children, in "Blossoms in the Dust," and the part of the young wife in the film version of Rachel Crothers' popular play, "When Ladies Meet." More recently she appeared in M-G-M's "Mrs. Miniver."

OPPOSITE DONALD COLEMAN

Playing opposite Ronald Coleman in "Random Harvest," Miss Garson portrays the role of a warm - hearted showgirl who falls in love with a soldier amnesia victim of the last war. After a tender romance, they are separated by fate and then find each other again under the most exciting circumstances.

It is of interest to note that Miss Garson was in costume when Louis B. Mayer saw her on the English stage in "Old Music," and forthwith urged her to try Hollywood. The stage remains a wistful memory to Miss Garson, who has never ceased to wish herself back upon it, if only for a holiday.

Relax! Haircuts Stay at Same Price

BURLINGAME — Peninsula residents can relax again over haircutting prices, for no definite price raise came out of this week's meeting of the Peninsula Barbers' Union.

Local barbers were of the opinion that no raise in haircutting prices would be forthcoming until the union made a full study of the need for a raise, and that it would be several weeks before any action would be taken.

The price for a shave was raised to 50 cents and the opening hours set for 9 a.m. instead of 8.

"Random Harvest" Star

Greer Garson, who shares honors with Ronald Colman at Fox Sequoia Theater.

Court Upholds R.C. Decision

The State District Court of Appeal has confirmed the judgment of Judge A. R. Cotton in superior court here in the Wolleb will contest, according to a remittitur on file with the county clerk today.

George Wolleb, 74, former caretaker who lived in Colma, amassed a fortune of $20,000. He died Feb. 20, 1941, and left three wills, one written in 1934, another in 1940 and a third in 1941, two days before his death.

A niece, Mrs. Rose Gisler, filed the third will for probate. Another niece, Mrs. Anna Olive, filed the first will and contested the third. A friend of the deceased, Henry Gehrig, filed the 1940 will. The court denied the Gisler and Olive petitions, and Mrs. Gisler appealed.

Army Signal Corps Seeks Radio Engineers

Army signal corps commissions in grades up to major now are available for 300 radio engineers, headquarters of the Ninth Service Command at Ft. Douglas, Utah, announced today. Of these commissions, 200 will be awarded to maintenance engineers.

The radio maintenance engineers should have two years of college or its equivalent, extensive experience in operation and maintenance of radio equipment or as a radio technician of a commercial broadcast station. For the higher commissions, applicants should have college degrees in electrical or radio engineering, electrophysics or the equivalent.

Qualified candidates in this area are urged to submit applications immediately to the field office of San Francisco Officer Procurement District, 328 Flood Bldg., 870 Market St., San Francisco.

Sagehorn Heads Victory Group

County Treasurer A. H. Sagehorn has been appointed to direct activities of the Victory Fund Committee, an agency of the United States Treasury, in the sale of government securities in Sequoia District.

Announcement of the appointment was made by William A. Day, chairman of the Victory eral Reserve District and president of the Federal Reserve Bank of San Francisco.

This new committee will conduct all future sale of United States Government securities in this area, with the exception of Series E war bonds and stamps and those sold through payroll deduction, Day said. The Redwood City War Bond Committee, headed by Martin J. Flynn, will continue to have charge of the latter three.

"Successful prosecution of the war calls for the tremendous total of $60,000,000,000 to be raised by the sale of government securities within the next 12 months," Day said. "To realize this sum requires the co-operation of every community throughout the nation."

A committee already is planning for the next victory bond campaign here, scheduled for April, Sagehorn said. The committee will call upon large numbers of Sequoia District residents for aid in the campaign, he added.

Cabooses built for a new military railroad in Louisiana have bay windows on the side, instead of the traditional rooftop cupola. One of the nation's newest railroads is the 50-mile Claiborne and Polk military railroad recently completed in Louisiana.

EXCHANGE: Devine Speaks

Clyde Devine, swimming coach at Sequoia Union High School, this week told Exchange Club members that "swim to live" is the theme of swimming instruction at the school, especially for young men slated for induction into the armed services.

The school swimming program, he said, has been adapted to meet latest army-navy requirements. Students are taught how to enter the water properly from various heights fully clothed, how to swim under water, how to use the breast stroke, back stroke and side stoke for maximum endurance and how to use their clothing to increase bouyancy.

Speed swimming has been minimized for the duration, Devine said.

Sequoia students are given instruction in the art of swimming in water covered with blazing oil, the instructor said.

Chairman of the meeting was H. M. Scales.

Fratti Transfers To San Jose State

Frank Fratti, 56 Orchard St., Redwood City, who had been conducting army signal corps training classes at Sequoia High School, has been transferred to San Jose State College to conduct similar classes for the corps, Supt. A. C. Argo announced this week. The signal corps classes at Sequoia have been discontinued.

Fratti a graduate of Sequoia, was training signal corps reserves in their duties before their call to active duty. He is a son of Mr. and Mrs. Steve Fratti, 530 Warren St., and a brother of Cpl. Armand J. Fratti of the coast artillery.

Noses To The Grindstone

A LOT has been said about workers in war production who take little vacations now and then—maybe a day off occasionally after a strenuous week, or after getting a paycheck with a lot of overtime in it.

But, by and large, not enough has been said about the chaps who keep their noses to the grindstone of production day in and day out. And they are really much in the majority.

Statistics show that folks with close relatives in the armed services are seldom absent from work without a mighty good excuse.

As a matter of fact "absenteeism"—the kind that can be criticized—is a habit confined to about 15 percent of the workers in most factories. In England and Australia they're trying to cure it by imposing stiff fines and by stern rebuke. In Germany, of course, the worker is kept in fear of his life.

But we can work the thing out in the American way. The important thing is for every worker to understand that when he stays off the job without a real reason he is putting a cheap price on the freedom for which our boys are risking their lives in battle.

Men in service in Africa or New Guinea or on Guadalcanal can't up and take a day off when they get the notion.

Surely, we folks on the home front can get to work when we're supposed to be there.

The war goods we don't make on our gay, little self-voted holiday may be just the stuff needed to save lives on the firing line.

Poland was conquered in 172,980 minutes, France (after Maginot broke) fell in 44,460 minutes.

This war is a battle of minutes.

We can at least give plenty of minutes to our country.

"Keep up the Good Work," says Land

Addressing all employees of Johns-Manville, Rear Admiral Emory S. Land, chairman of the United States Maritime Commission, sent the following message in care of President Lewis H. Brown:

"Since I had the privilege of presenting to the President on behalf of the workers in the Johns-Manville Waukegan factory their pledge to stay on the job and give their level best until victory is won, I was delighted to learn that production in 1942 in all Johns-Manville factories set a new record. This was accomplished with no increase in employment which, because of our critical manpower shortage, is indeed an outstanding contribution to the war effort.

"Keep up the good work of supplying your essential products to us in the Maritime Commission and to our armed services and war industries. The hastening of victory depends more than ever in 1943 on the production front."

The admiral's letter reflected his appreciation of the peak output of J-M plants in 1942 as recently disclosed in Johns-Manville's report of its first full wartime year.

J-M FAMILY ALBUM

THEY DON'T BALK AT BULKY LIFT! Yvonne Weaver, left, and Esther Zerbuchen heave rolls of Rock Wool blankets around in shipping room at J-M Waukegan plant. Not heavy, actually, and they handle bulky burden with ease. Women taking over jobs like this help replace men called into the armed services.

Big Covering Job

Millions of feet of J-M pipe line felt are wrapped around the first section of the 'Big Inch' Oil Pipe Line now complete to Norris City, Ill.

It started at Longview, Tex., and except for some mountainous sections every foot of its 500-mile length had to be wrapped; work has started on the final leg of the 'Big Inch' which is to bring oil to the Eastern Seaboard. The pipe is 24 inches in diameter.

VICTORY GARDEN CROPS
GIVE YOU
FLAVOR—VITAMINS and MINERALS

Hi-ho, you Victory Garden Farmers! Come harvest day and the reward for your hard labors will be eatments as tasty as any you ever tucked away under your napkin.

Crispy-fresh, fully ripened garden produce has flavor plus! It has vitamins at peak of vitality and minerals at full nourishment.

Use your garden crops fresh picked or pop them at once into your refrigerator. Most vegetables should be cooked in covered utensils and little water. Too much water and too much heat and air destroy their nutritive value.

Remember you are a food hoarder with a halo when you raise garden produce in your Vitcory Garden. Your government has called for 20,000,000 Victory Gardens. Plant and replant and beat the Axis in your own back yard.

Service: Sturz Reports for New Duty

MENLO PARK — Ensign Charles E. Sturz of the U. S. Navy left recently on a new assignment to duty at an undisclosed destination. He had been visiting for two weeks at the home of his parents, Mr. and Mrs. Hans Sturz of Gordon Ave., Menlo Park, and greeting friends on the Peninsula.

Ensign Sturz was graduated from Sequoia High School with the class of '38. During his high school career he was affiliated with the athletic department and was captain of the varsity basketball team in his senior year. He was named all-P.A.L. guard the same year. Later, at San Mateo Junior College from which he was graduated, he maintained his athletic prowess. He took his naval officer's training at Northwestern University and was commissioned there Dec. 24 last. His special training at the navy's torpedo school in San Diego was followed by the furlough spent on the Peninsula.

Besides the ensign, the Sturz family includes two sons and three daughters. Herbert Sturz is a research chemist with the Dow Chemical Co. of Pittsburgh; Robert Sturz of San Francisco is a newly enlisted merchant marine; Mrs. Louis Kaiser is at the Menlo Park address for an indefinite period, having come here last May from Honolulu where her husband is employed and where they made their home before the war; Miss Lillian Sturz is a teacher of art in the elementary schools of Bakersfield, and Miss Violet Sturz, R.N., is a nurse at the Stanford Convalescent Home in Palo Alto.

CHARLES E. STURZ

MILTON DE LUCCHI STATIONED AT YALE

NEW HAVEN, Conn.—Aviation Cadet Milton R. DeLucchi, grandson of Mrs. Auguste Hagen of Upland Dr., Redwood City, has entered the U. S. Army Air Forces Technical School at Yale University, where he will undergo intensive training for a commission as technical officer in photography.

Taking the same course is Cadet Rex L. Covey, son of the L. M. Coveys of 281 Laguna St., Redwood City.

AL BECHET WRITES FROM ENGLAND

Al Bechet, who made his home in Redwood City for some years while manager of the F. W. Woolworth & Co. here, is stationed now with the army's general purchasing board in England, according to a letter received here by Bechet's brother Eagles.

Although he has had little time for sightseeing since going overseas in this his second trip across in wartime, he did make the rounds of London on Sunday, his letter said, taking in Westminster Abbey among other points of interest.

"It gave me quite a thrill to stand before the grave of the Unknown Soldier which lies within, for it brought back memories of the time when I stood on the same spot over 20 years ago, upon the occasion of General Pershing's presentation of the Congressional Medal of Honor. I was one of two American soldiers privileged to witness that ceremony," he wrote.

He described his reactions to the blackouts, then continued to tell of the wooden paving blocks used in the streets of many of the English cities and the use of cement paving blocks for sidewalks, which can be removed as a whole and replaced.

"As to our army," the letter said, "they probably do not always have the snappy appearance of men in other armies with longer service, but when it comes to a scrap, they can't be beaten."

Bechet holds the rank of first lieutenant in this war, but in Worlr War I he started in as a private, and stayed abroad with the army of occupation until 1923. As a member of the First Engineers, he served with the Interallied Railway Commission and was in charge of the convoy for Pershing's special train when the unknown soldiers' tombs were dedicated in France and England.

Other members of the Redwood City Eagles' lodge who are now serving in the armed forces, according to the aerie's honor roll, are Alvin H. Silva, Leonard J. Merta, Frank J. Tuma, Jack J. Leslie, J. A. Roy, S. A. Celotti, Dr. Bard S. Berry, Robert W. Davis, Raymond Montoro, John J. Owens, Graham C. Hone, Jack Donaldson, Eugene Clivio, William M. Werder, Dewain H. Hagen, William F. Michel, Frank Aragon, John Repetto, George B. Miller, Gus A. Graham, Louis Piestina, Joseph Davis, Cecil Small, August Canepa.

Keith R. Barnett, Alton Cook, Harold H. Price, Clyde Landis, Walter E. Sillivan, Edward J. Gardner, Nathan J. Mangini, John A. Milan, John Negro, Al Richstatter, Ralph Ledesma, Isadore G. Brazil, Charles A. Nilson, Pasco Balzarini and Robert Ellenberger.

Public Notice

O'Keefe & O'Keefe, Attys.
NOTICE OF HEARING OF PETITION TO EXECUTE A PROMISSORY NOTE AND DEED OF TRUST ON REAL ESTATE.
No. 10311—Dept 1

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Estate of JENNIE MICHEL, Deceased.

M. LORAINE MICHEL, the Administratrix of the estate of JENNIE MICHEL, deceased, having filed herein her verified petition praying for an order authorizing her, as administratrix, to execute a promissory note and deed of trust on certain real estate described in said petition and alleging that it is necessary to encumber said real estate to pay the debts outstanding against said deceased, the costs and expenses of administration of said estate of said deceased, and to assume and refinance a certain deed of trust already subsisting on said real estate.

Notice is hereby given to all persons interested in said estate to appear before said Superior Court on Monday the 15th day of March, 1943, at 10 o'clock a.m. of said day, at the Courtroom of said Superior Court in Department No. 1 thereof, at the Courthouse in Redwood City, San Mateo County, California, to show cause, if any they have, why an order should not be granted to the said administratrix of the above entitled estate, authorizing and directing her to borrow the sum of $2,750, or such lesser amount as to the Court shall seem meet and to execute a promissory note and a deed of trust, to secure the payment thereof, on the real property of said estate described as follows:

All that certain real property situate, lying and being in the City of Redwood City, County of San Mateo, State of California, and particularly described as follows:

Portion of Block 5 as designated on the map entitled "HANCOCK'S ADDITION TO REDWOOD CITY," which map was filed in the office of the Recorder of the County of San Mateo, State of California, on February 21, 1862, in Liber "E" of Maps at page 43 and a copy entered in Liber 1 of Maps at page 80, more particularly described as:

BEGINNING at a point on the Southwesterly line of Main Street (formerly Mound Street), distant thereon 51 feet 7 inches Northwesterly from the Northwesterly line of Chestnut Street, as said streets appear on the map above referred to; running thence Northwesterly along said line of Main Street 103 feet 2 inches to the most Easterly corner of the property conveyed by Christian Peterson and Mathilda Peterson, his wife to J. B. Perry by Deed date February 26, 1909, and recorded March 1, 1909, in Liber 111 of Deeds at page 283; thence at right angles Southwesterly along the Southeasterly line of the property so conveyed to Perry 125 feet; thence at right angles Southeasterly 103 feet 2 inches; thence at right angles Northeasterly 125 feet to the point of beginning.

Reference is hereby made to said petition filed herein for further particulars.

DATED: March 3, 1943.

HEDGES: Planning Group Asks Regulatory Ordinance

Regulation of the height of hedges in Redwood City—a bone of contention several months ago—again has come up for discussion.

The Redwood City Planning Commission this week directed City Atty. Paul A. McCarthy to prepare an ordinance regulating the height of hedges, to be presented to the Redwood City Traffic Safety Committee and then to the city council.

The proposal is to regulate the height of hedges on private property at and near intersections, and hedges on private driveways. It was also proposed to regulate the height of shrubs in parkings.

Opposition to regulations on the height of hedges was voiced several months ago, but more moderate regulations are planned this time, according to McCarthy, member of the city planning commission.

A resolution providing a procedure for filing subdivision maps was discussed in part and tentatively approved. Considerable study is being made on the matter, McCarthy said. An attempt is being made to secure a uniformity of procedure.

Attention was brought to the planning commission of a bill in Congress to appropriate $100,000,000 for post war planning, of which $75,000,000 would be allocated to state and local governments for public works and improvements, and it was decided to contact Rep. John Z. Anderson to obtain a copy of the act. The proposal will be considered by the group.

The yucca plant, which grows in the southwest, is being studied as a possible substitute for imported hemp and jute.

Resintone, Quart 79c

Equals Famous Nationally Advertised Wall Paints Selling at Higher Prices!

★ A SINGLE GALLON OF RESINTONE will cover the walls and ceiling of an average-size room!

★ AFTER 1 WEEK, IT'S WASHABLE! (Lasting beauty!) Just use mild soap and water.

★ 12 LOVELY PASTELS, AND WHITE! You can blend additional shades by inter-mixing.

★ USE RESINTONE'S COLOR-BORDERS! Gay, good-looking trim. Gummed, easy to apply.

★ The ROLLER APPLICATOR is 89c. So easy to use, a 10-year-old child can paint with it.

Now that you're spending more of your spare time *at home*, you *yourself* can easily (and economically) beautify your home, with *Resintone!* You can do it without fuss or muss or "Wet Paint" signs . . . without being deprived of the use of any room . . . and without the problem of finding a painter not busy with War-work! You can "re-do" any room quickly and easily, by rolling on *Resintone* with a roller applicator, or brushing it on (without fear of brush marks!) When you use Resintone, there's nothing else to buy . . . no primer or sizing, no oil or turpentine. Resintone "thins" with *water* from your faucet! 1 gallon of Resintone, mixed with ½ gallon of water, gives you 1½ gallons of paint! There's no "after-painting" muss, either . . . Resintone can be washed off with water immediately—from your hands, brush, roller, or floor! Resintone's as neat and quick and easy as it sounds! Try it (now) on one room . . . and you'll *buy* it (soon) for every room in your home!

MONTGOMERY WARD

Musical Comedy Plays in S.F.

"The Chocolate Soldier," one of the stage's most outstanding musical comedies, which opened a successful engagement at the Alcazar Theater Sunday night, is at this time a particularly topical and tuneful stage offering.

The first act of the Oscar Straus operetta depicts three lonesome women in a colorful and voluptuous boudoir bemoaning the fact that their sweethearts are away at war and they are left alone to sigh and lament the absence of their loved ones. In this case, however, the grief is not because of fear of wounds or death, but because of the acutely felt lack of love element.

It is then that Charles Purcell, who again plays the title role of Lieutenant Bumerlie, in which he has appeared more than 2000 times, in fleeing from enemy officers, climbs the fire escape into the boudoir and begs the ladies to hide him. From that time on the fun is fast and furious with spice injected into the scene by the three menhungry women all trying to make love to the dashing lieutenant at the same time.

Virginia Card is the prima donna, and it is she who eventually wins the heart and hand of the romantic chocolate soldier. Other prominent singers and actors in the cast are Ruth Gillette, Bonnie Emerie\ Nita Ann Carol, Alonzo Price, Earl Covert and Gene Ramey. A splendid chorus and clever ballet complete the stage picture.

The costumes are rich and colorful, and the scenery distinctly apropriate depicting the Bulgaria of a distant day with its peasants, soldiers, officers and sensuous women. The delightfully tuneful Straus music heard under the direction of the distinguished Cecil Stewart in such glamorous atmosphere makes "The Chocolate Soldier" the type of show always welcomed everywhere, and is attracting banner audiences to the Alcazar.

Winterbothams Sell Atherton Residence

Mr. and Mrs. George Winterbotham have sold their Austin Ave. residence in Atherton to Mr. and Mrs. Huntley Castner of San Mateo for $16.000, according to a deed recorded in County Recorder T. Clark Rice's office in Redwood City. The deed was recorded at request of California Pacific Title & Trust Co., Redwood City. The Winterbothams now live in Washington, D. C.

S. C. To Hold Garden Meetings

SAN CARLOS—A series of 10 weekly features on home food production will be inaugurated Monday evening in San Carlos when Fred D. Klyver of San Mateo Junior College speaks at 7:45 p. m. at the elementary school.

The classes, which will be free of charge and open to all who are interested, will be presented under the sponsorship of the San Carlos Home Food Production Committee and the San Carlos Civic Garden Club, according to Mrs. Willa Cloys Carmack, victory gardening chairman. About half the lectures will be on victory gardening, with alternate Mondays devoted to information on poultry and rabbit raising.

"Practically everyone in San Carlos has a victory garden started," Mrs. Carmack said, "and many are raising chickens and rabbits. However, we have planned no definite survey to find the exact numbers."

Besides the individual backyard gardens, Mrs. Carmack reports, there are many neighborhood projects on vacant lots, and more are being prepared, despite the fact that as yet San Carlos gardeners have been promised no special victory garden water rate.

The California Water Service Co., which supplies San Carlos, already has a special summer rate—a 7 per cent reduction—which is in effect each year from May to October, and reported today that there are no plans for any further concessions.

Further reduction of the rates, however, may be forthcoming, following a survey by the California Railroad Commission. The commission's report was submitted to the city council at its last meeting, but action on the survey was shelved pending further study by the council. City, company and commission officials will meet in San Francisco next Monday for conferences on the commission's findings.

Mrs. L. B. Waters is general chairman of the home food committee for San Carlos, working under the county committee chairman, George J. Davis. She has announced the following appointments of sub-chairmen:

Mrs. Carmack, victory gardening; H. O. Whitacre, poultry and small animal raising; Mrs. Henry Wrigley Sr., home preservation of foods; Mrs. W. H. Giberson, school victory gardens.

As yet unnamed is a chairman to supervise garden displays and special shows, to be open to adults and children.

These chairmen have assembled government bulletins and literature dealing with their subjects for the use of those needing assistance with their home food production problems, Mrs. Waters reports.

SCRAP: Drive Succeeds

Frank A. De Patta, chairman of Redwood City's salvage committee, has received word of the success of the nationwide scrap metal drive, and a statement from Vice Adm. S. M. Robinson, chief of the navy's bureau of procurement and materials, who said there was enough scrap iron collected in three weeks of the campaign to build more battleships than all the present fleets combined.

Donald M. Nelson, War Production Board chief, last Fall asked for four million tons of scrap iron to be collected in eight weeks. A total of five million tons was collected in three weeks, according to figures just released.

Redwood City took an active part in the campaign and contributed many tons of scrap metal.

Fox Announces Civil Service Exams

The following civil service examinations were announced today by Chester B. Fox, Redwood City secretary of the U. S. Civil Service Commission.

Aircraft factory inspectors, $3200 a year plus about 21 per cent overtime.

Auto mechanics and helpers, $1.26 to 58 cents an hour.

For further information consult Fox at the post office at Redwood City.

Company Gives To War Fund

Following the board of directors' meeting, Pres. N. R. Powley announced that Pacific Telephone and Telegraph Co. and its subsidiaries, Southern California Telephone Co. and Bell Telephone Co. of Nevada, are making a lump sum contribution, without specific allocation to chapters or communities, of $85,00 to the American Red Cross War Fund.

With reference to the lump sum contribution to the Red Cross rather than allocations of the amount to individual chapters acting in its behalf, President Powley stated that the telephone company was, of course, most sympathetic to being of all possible assistance to each Red Cross chapter in its making its quota, but due to the far-flung territory with its multiplicity of communities in which the companies operate throughout the five Pacific Coast states, it is not praticable to make specific allocations of the contribution to any particular chapter or community since, notwithstanding the sizable amount of the total contribution, such allocation has in the past created misunderstandings among chapters which did not receive a similar amount allocated to one chapter or some proportional amount to which they felt they were entitled under their particular quota.

M.P. COUNCIL: Members Ask Highway Commission To Permit Diagonal Parking

Moving to straighten-out traffic problems on El Camino Real, the Menlo Park City Council this week requested the California Highway Commission to permit diagonal parking on the highway between Santa Cruz and Oak Grove avenues.

At the same time, the council urged Police Commissioner Edward McGurrin Jr. to rigidly enforce rules banning double parking on El Camino Real.

Paul McCarthy, Redwood City city attorney, spoke to the council on the background of a request that all San Mateo county cities and unincorporated municipalities jointly hire a county planning coordinator. This coordinator would serve as a liason between the various county planning commissions and would increase coordination between these various planning agencies, he said.

The council authorized a letter to the Atherton city council urging installation of stop signs at the intersection of Glenwood and Laurel avenues. One side of the intersection is in Atherton, and the other in Menlo Park.

Councilman Charles P. Burgess, chairman of the Menlo Park Defense Council, announced that J. L. Rogers had been appointed to the defense council to replace Sanderson Smith, who resigned recently to devote more time to government work.

Oranges in the New Hebrides Islands grow so large that two human hands can scarcely span them.

Fertilizer Available

With the scarcity of chemical plant foods and government restrictions on their use, home gardeners will be glad to learn that an old reliable brand of pulverized sheep manure is available in plentiful quantities, not only for victory gardens but without restrictions for flowers and lawns as well. This means that gardeners will not have to resort to barnyard manure with all the disagreeable implications it suggests. This processed sheep manure, which is thoroughly cured and aged and guaranteed free from weed seed, is sold under the trade name of Grozit.

While its action is not as fast or spectacular as prewar chemical plant foods, this sheep manure is said to provide a liberal supply of organic nitrogen and other plant foods essential to healthy growth, releasing them as needed throughout the growing season. It also provides the humus to make soil rich and mellow—a storehouse for food and moisture. Grozit comes in 100-pound bags and is available through local dealers.

CD Volunteers May Demonstrate

Redwood City civilian defense workers may go through actual demonstrations at the next city-wide civilian defense test instead of just reporting to the scene of incidents, it was reported by CD officials today following a meeting of the war council and committee chairmen.

In past drills, CD workers have reported to the scene of incidents after calls from the control centers and then immediately returned to their stations. If plans which were discussed last night work out, however, the workers will go through actual demonstrations. For example, the fire department will put up ladders, put down hose and rescue people. Streets will be blocked off in cases of reports of unexploded bombs. Other departments would go through a similar process, Mrs. Florence Donnelly, CD secretary, said.

It was stressed this week the need of recruiting additional civilian defense volunteers, particularly in the fire department. Many have been lost because of military service and defense work.

Sesil Kyle, senior gas officer, announced that he will hold a gas mask drill and inspection early next month for holders of gas masks. Instructions in gas protection are being sent to all Redwood City homes this week, Mrs. Donnelly said.

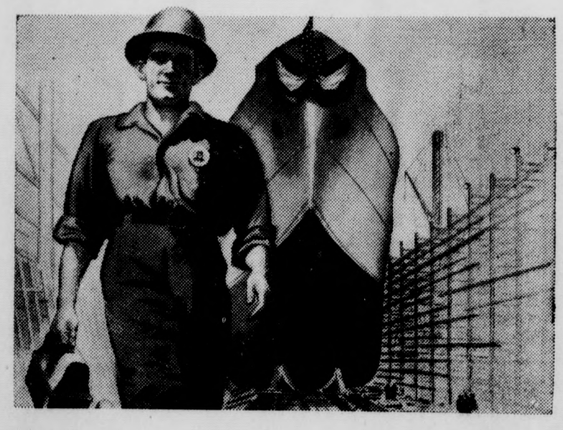
Fire Chief Mark E. Ryan made a report on a meeting he and Police Chief C. L. Collins recently attended in San Francisco, at which Dr. George Baehr, chief of the emergency medical service of the national office of civilian defense, explained what has been done in Great Britain during bombings.

Idle Truck Equipment To Be Used in Harvests

SAN FRANCISCO (AP) — Every piece of idle trucking equipment must be put into operation if California harvests are to be moved from farm to market, the Office of Defense Transportation said today.

An ODT spokesman suggested pooling of equipment, re-routing and combining loading and transport facilities in addition to other emergency practices to solve the shortage of equipment and manpower.

Telephone Calls Help Build the Ships



To war-busy places, please make only the Long Distance calls that are essential

Long Distance lines are carrying a huge volume of calls that deal with war work. With production of ships, planes, guns; with troop movements.

This daily volume of Long Distance telephoning is the greatest in telephone history. Due to shortages of materials, we cannot expand the network of telephone lines.

But your help in holding to the *essential*, your own calls to the war-busy centers, is a real contribution to the drive for Victory.

You are aiding in keeping the lines open for vital calls. That speeds production. We appreciate your thoughtfulness.

IN LONDON: Former Redwood City Man Reports on England's Ration Problems

So you think food rationing is tough? That you can't survive with only three new pairs of shoes a year? You just have to have more gasoline?

At least you don't have to stand in line for everything here, as the English do for virtually everything they buy for everyday needs, according to a letter reecived here from Al Bechet, former manager of the Redwood City Woolworth store who now is stationed in London with the army. That letter gives a picture of England under rationing in this fourth year of her fight.

"Store hours now are from 9 a.m. to 4 p.m., with a 1 o'clock closing hour on Saturday. They have always closed at 1 o'clock on a Saturday, war or no war, however," Bechet writes.

"The assortment of merchandise is greatly reduced and, in many instances, I found that what was being shown in the window was actually all of the stock on hand. Generally speaking, however, there is an abundance of merchandise in many lines because of the system of rationing, which makes it difficult for a person to obtain very much of anything.

"Food is rationed. When one realizes that this is the fourth year of war for this country, one can readily say that in America people do not know what war really is," the letter continues. "The people will queue or line up for most of their supplies for 15 to 30 minutes awaiting their turn to be served. We become impatient when we have to wait only a few minutes for chow.

"I have said many a time, and I repeat again, that my hat is off to the British for their conduct in . . . the war.

"The use of an automobile for anything but necessary and important business is out. One simply cannot obtain gas, or 'petrol' as it is called here, without outlining the trip in advance and necessity for same," Bechet reports.

"Cigarets," the letter continues, "are reasonably plentiful, but expensive—about 40 cents a package. A fair cigar will cost a quarter (try and find one)."

Enclosed with Bechet's letter was a chart of the British rationing system, which reveals that for the entire year, 60 clothing coupons are issued to each person, to be "spent" for the following items:

Men's clothing: Handkerchiefs, two for one coupon; wool socks, three coupons a pair; lower grade socks, two coupons; ties, 1; gloves, 2; shoes, 7; suit, 24; overcoat, 16, and shirt, 7. For men and women both hats are unrationed.

Women's clothing: Handkerchiefs, 4 for one coupon; full fashioned hose, 3 coupons a pair; non-fashioned hose, 2 coupons; suede and leather gloves, 2; net and crochet gloves, 1; shoes, 5; two-piece suit, 18; top coat, 18; blouse, 4.

Yard goods for clothing also is rationed from the clothing stamps. Wool yardage is valued at 4½ coupons for a yard of 54-inch fabric, and mixtures at two or three coupons for a yard of 36-inch cloth. Values here vary according to width, texture and weight of the cloth.

Towels, glass cloth and curtain materials, excepting heavy tapestries and net, are on the ration list, as is soap. Four coupons a month is the soap ration, which allows the purchase of one small cake of toilet soap, half a pound of soap flakes, small packet of soap powder and a quarter pound of laundry soap, the table shows.

Each person receive 20 points a month to be used in the purchase of tinned foods, cereals, biscuits, preserves, rice and dried fruits.

Instead of 25 cents worth of meat a day, the English are allowed the equivalent of 24 cents worth a week. This does not include liver, sausages and "offal"—brains, heart, etc—which are not rationed.

Other food items as received by the British each week, according to Bechet's table, are: Sugar, 4 ounces; butter, 2; margerine, 4; Lard or other shortening, 2; cheese, 8; bacon, 4; tea, 2; milk, 2 pints a week, with a pint a day allowable for infants and invalids; candy, 3 ounces. Pastries may be bought if they can be found—first come, first served. Bread is unrationed, but eggs are doled out at the rate of one a month per person. A can of evaporated milk costs 5 points a tin, but dried household milk is unrationed. A month's ration coupons are the price for tinned chicken or turkey.

LIST: Three Go Tomorrow

Fifty men who were inducted into the army last Tuesday and have been on seven-day furloughs left Redwood City Tuesday afternoon for the Presidio of Monterey for active duty, Secty. George F. Paul of local selective service board 106 announced. Three more men left Wednesday for Monterey.

Henry H. Klettenberg, Frank O. Roszell and Daniel W. Sisson were appointed acting corporals for the trip to Monterey Tuesday, and William V. McSweeney served in that capacity with Wednesday's contingent, Paul said.

Leaving Tuesday: Chester M. Paise, Russell K. Halterman, Manuel M. Ortega Jr., Raymond W. Murad, Stewart W. Mitchell, Ray A. Turner, Gordon Shepard, George E. Rusch, Julian R. Ducray, Joseph A. Jamello, John M. Krenzer, Robert R. Collins, Frank J. Hunt.

Russell D. Besser, Everett F. Bottema, Raymond F. Leith, Ralph W. Garcia, Frank J. Guinasso, Calvin C. Coats, John T. Lemanski, Herbert O. Walters Jr., Carl Mettler, Herbert R. Roeder, William F. Russell, Henry H. Klettenberg, Lester G. Hawkins.

Alfred P. Hund, Walter Sepulveda, Alfred W. Lowe, John M. Leonard, Frank R. Vierra, Louis A. Zanardi, Arthur Lopez, John D. Roper, George A. Tilt Jr., Lawrence Lopez, James D. Leahy, Joseph M. Gagliano.

Russell K. Caplette, Frank O. Roszell, Clifton Riley Jr., Joseph E. Hopkins, Emerson L. Hyde, Arthur J. Bini, James L. Hamon, Daniel W. Sisson, Willis C. B. Sears, Lionel J. Medina, Douglas Caplette and Joseph A. Scilini.

Leaving Wednesday afternoon were McSweeney, Loren E. Anderson and Lawrence E. Haseltine.

Next draft through the local board is scheduled for Apr. 1, Paul said.

Shell Provides Fun for Armed Forces

Pictured above is the cast of the Shell Military Show, travelling entertainment unit produced by Shell Oil Company, Incorporated. Left to right, they are Lloyd Simpson, Johnny O'Brien, Patricia Lynn, Gabby Redwood, Phillisita, Bert Easley. The one and a half hour variety Show is playing to military camps in the West. During the Show gift song books are presented to audiences for a community sing. Another feature of the Shell Show is a "home-recording act." In the scene above the players are tossing ping-pong balls into the audience. Lucky catchers are invited on stage to make free records of their voices to send to family or friends. Primary purpose of the Shell Military Show is to furnish much-needed entertainment to service men in isolated units.

MENLO PARK NEWS

BY D. E. O'KEEFE

Two new business enterprises will start in Menlo Park the first of the month. The proprietors are from Palo Alto where they conduct merchandise stores.

★ ★ ★

There will be no weddings in Menlo Park during Lent, but three are scheduled to take place right after the fasting time is over.

Next month the municipal election takes place. Three candidates have their eyes on the board of trustees and will be candidates for the positions. A lively campaign is looked forward to by local politicians.

★ ★ ★

Sunday afternoon Irene McLaughlin, the pretty daughter of Mr. and Mrs. E. J. McLaughlin of Mills Ave., was united in marriage with Donald J. Graham of Moffett Field in the Church of the Nativity. The impressive ceremony was witnessed by many friends of the couple.

★ ★ ★

Several salmon weighing between 7 and 10 pounds were caught at the mouth of San Francisquito Creek this week. The poachers were from San Francisco.

SAN CARLOS: Campaign Net Falls Short

SAN CARLOS — Only about $800 of the funds needed to operate San Carlos Hospitality House for the next 12 months was raised in the just-completed drive for $1200, Mrs. Donald R. Lilly, publicity chairman for the drive, announced today.

The fund campaign was carried on by members of the block leaders' organization of the San Carlos civilian defense personnel and was directed by Mrs. Charles F. Holzwarth, chief block leader.

Mrs. Lilly said that although all of the money raised has not been turned over to Mrs. O. W. Stewart, financial chairman for the drive, each block leader has reported the approximate amount collected, totaling nearly $400 short of the goal.

Since the sum raised is only enough to defray the estimated expenses of the hospitality house for eight months, Mrs. Stewart or the hospitality house committee, headed by Mrs. P. J. O'Meara, will continue to accept gifts and pledges for the fund, Mrs. Lilly added. Mrs. Stewart may be reached at 924 Elm St. or by calling SC 339.

NEW! RICHLY FLAVORFUL!

Zoom

INSTANT COOKING WHOLE WHEAT CEREAL

Look for ZOOM at your grocer's today! You'll recognize the bright blue handysack with the name Z-O-O-M in skywriting. This delicious, instant-cooking cereal is *new* . . . a new type . . . a new taste treat . . . brings a new enthusiasm to the breakfast table. Get ZOOM today!

ECONOMICAL HANDYSACK

ZOOM is a welcome new member of Fisher's Handysack family . . . convenient size for your kitchen shelf . . . always handy. Economical . . . no waste. Handy size for these carry-your-own days.

COOKS INSTANTLY!

Simply stir ZOOM into boiling water—it cooks instantly. Let stand a moment until it's desirably thickened. Now everyone can enjoy a hot, nourishing breakfast even when in a rush!

HIGH SCHOOL: Sequoia To Introduce New Class in Radio Code Practice

With the addition of a new class in radio code practice and touch typing to the Sequoia High School curriculum next Fall, the school will have one of the finest schedules of pre-induction and pre-industry courses in practice anywhere in the state, in the opinion of Supt. A. C. Argo, who announced the course.

The new class will combine the two most important duties of army and navy radiomen—sending code and transcribing incoming messages on a typewriter. It will be open to juniors and seniors at the school and will supplement the present radio studies.

Registration is beginning this week for the juniors, who through their counselors will be guided into one or more of the pre-induction courses unless they plan college training in one of the essential professions—medicine, engineering or science—for all of the present junior boys face entrance into the service by the end of their senior year, unless their college plans or health condition warrant deferment, Argo said.

NAVY APPROVES

The new course and the entire schedule of similar subjects have been worked out along the lines suggested by the army and navy, and as practiced thus far have brought commendation from navy officials at Treasure Island.

With all this preparation for army and industry service, however, Sequoia will not forget the fundamental purpose of public schools—to provide a good basic education, Principal Argo said.

"We will not cut down on our vocational and cultural courses, but instead will adapt even those to our war needs—a change of emphasis instead," he stated.

Sequoia has, as all other high schools, two types of students, the minority who will go on to college for professional training and the majority who plan to work upon completion of their high schooling. The pre-induction courses will train them for that most important job now—winning the war—and will lay a foundation for a trade after the war, he explained.

SHOP TRAINING

The first pre-induction study, to be required of all boys in the school except the college preparatory students, who will get their mathematics and science grounding elsewhere in their courses, will be fundamentals of shop practice, which will give the boys an introduction to shop-work methods and a basic knowledge of the required mathematics, he continued. This study will be made during the freshman year.

During the sophomore year, the non-college students will be enrolled in more advanced shop studies and the college preparatory will be encouraged to study biology, chemistry or physics.

Special war training classes to be open to junior and senior boys will be fundamentals of machines, electricity, radio and combustion engines, a preflight class, emergency mathematics and the new code-typing class.

MATHEMATICS STRESSED

The emergency mathematics course, Argo explained, is not a "bonehead" study but one of the arithmetic, algebra, geometry and trigonometry fundamentals necessary for many of the specialized fields within the services.

In addition to these studies, boys who show a special ability along business lines will be encouraged to enroll in the commercial studies.

Not all of Sequoia's pre-induction course, the principal continued, will be "for men only." Girls will be encouraged to enroll for sheetmetal, electric and radio shop and for the industrial pre-apprentice studies. Training in pre-nursing and pre-college sciences will be suggested for those who display the proper ability, and homemaking and business training will receive new emphasis.

With the exception of the code-next Fall, all of these pre-induc-next Fall, all of thes pre-induction and pre-industry courses have been tried at Sequoia and fund successful in preparing boys and girls alike to serve their country, Argo said.

Police Launch Hunt For Scarred Kidnaper

San Francisco and Peninsula police today were searching for a scarfaced kidnaper who allegedly forced a 13-year-old San Francisco girl into his car, drove down Skyline Blvd. near Hillsborough and attempted to rape her. Police said the child freed herself and ran to the home of Myron Hoeffler, 1220 Canterbury Rd., Hillsborough, who notifiel authorities.

COURT ACTION: Merchant Seeks Meat Dealer Ouster

The Office of Price Administration and its restrictions on civilian meat supplies today were blamed for a condition described in legal terms as the "doctrine of commercial frustration" in an action by a San Mateo merchant to oust the meat dealer to whom he leased his meat department.

In a superior court action filed Jan. 29, Lester Jinkerson, owner of Lesters 25th Ave. Market in San Mateo, appealed to the court to oust J. W. Olinghouse, who leased the meat department, on the grounds that he was not living up to terms of the lease. The lease, signed Aug. 14, 1942, provided that Olinghouse would operate the meat market with the same mark-up, advertising policy, and same ration to sales volume of persons as other markets operated by Olinghouse.

Since Dec. 1, Jinkerson alleges, Olinghouse has purchased an adequate supply of meat but has distributed practically all of it to his other markets.

In Olinghouse's reply he cites OPA restrictions as the reason for any diminution of meat supplies to Lester's Market. He points out that OPA clamped slaughter restrictions on cattle slaughter Oct. 1. Distribution of available supplies is made on the basis of the amount of meat sold to each market in the corresponding month two years ago.

Olinghouse claims he and Jinkerson entered a verbal agreement Dec. 2 by which the meat dealer would operate "as best he could."

On Jan. 17 he deposited a rental advance of $1187, he states.

White Collar Men Aid Railroad

The patriotic response of business men, students, farmers and others to Southern Pacific's appeal for week-end track labor will help to relieve the acute shortage in maintenance of way forces, but thousands of full-time workers are still needed to keep the company's lines in condition for handling war traffic.

This was announced today by W. H. Kirkbride, chief engineer for the railroad, following the latest checkup of results obtained in the company's widespread campaign to recruit "white collar" men for spare-time employment on Saturdays, Sundays and holidays.

For the holiday week end of Feb. 20 to 22, aproximately 3300 man days were rolled up by the white collar trackmen on Southern Pacific's lines in the West, in spite of inclement weather in many sections, Kirkbride reported. Figures for the week end of Feb. 27-28 are not yet available but they are expected to be considerably larger, he said.

Veteran section foremen say the business men, students and co-workers are "doing a fine job" in the emergency confronting the railroad, and that the response to the call for week-end workers has been excellent in most cases. For their part, the spare-time trackmen agree that "toughening up" is a good thing these days, especially when they can help the war effort at the same time. Besides, wages for a week end's track work go a long way toward buying an extra war bond.

The campaign to enlist white collar men on a large scale for maintenance of way gangs followed successful experiments at Davis and Palo Alto, Calif. It is being carried on vigorously while Southern Pacific strives to relieve the critical shortage of regular track workers.

WASHING CHINA

To prevent chipping and cracking, handle your best china carefully. Lay a folded tea towel in the bottom of the pan before adding the china and then wash a few pieces at a time. Do not overload the pan.

A plaque in London, erected by British Marines, honors American leathernecks.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Bus Company Asks Co-Operation

Pointing out the continued need for co-operation of the traveling public in order that military personnel on leaves and furloughs may be able to travel, F. W. Ackerman, vice president of Pacific Greyhound Lines, today made the following statement:

"The primary wartime job of bus lines is moving the armed forces, workers in war plants, farmers and others carrying on essential wartime activities. The rest of the public should give special consideration to the large number of men in uniform who desire to travel by bus on leaves and furloughs.

"Week ends are often the only time when these men from the military camps and bases can travel, and the bus lines ask your co-operation in making room for them. If the general public will take their necessary bus trips during mid-week (Tuesdays, Wednesdays and Thursday) they will be helping these men in the armed forces, and at the same time they, too, will enjoy better service.

"Other ways in which travelers can co-operate to make their bus riding more comfortable include: Keeping baggage to a minimum, purchasing tickets in advance to avoid the last-minute rush, and consulting a bus agent well ahead of departure time for helpful advice on schedules and connections."

To remove commercial ice cream from paper cartons, run a spatula or long knife, dipped in warm water, around the sides and then quickly unmold the ice cream onto a platter and serve as desired.

Mmm! Real Home-Made Soup!

AND NOT A RATION COUPON NEEDED! Try this rich, satisfying home-made vegetable soup some night soon. Made according to the old-fashioned family recipe below—and served piping hot with fresh, flaky Snow Flake Crackers—this famous dish makes a wonderful wartime meal.

OLD-FASHIONED VEGETABLE SOUP

- 2-pound soup bone and meat
- 2 quarts cold water
- 2 teaspoons salt
- ¼ teaspoon pepper
- 4 sprigs parsley, chopped
- 1 large onion, finely chopped
- 1 small clove garlic, finely chopped
- 2 teaspoons mixed herbs
- ⅔ cup Wheatsworth Cereal
- ¾ cup finely chopped celery
- 1 cup diced turnip
- 2 cups sliced carrots
- 2 cups tomatoes
- 1 cup diced potatoes
- Snow Flake Crackers

Cut half of the meat from bone; brown in hot fat. Place browned meat in kettle with bone and remaining meat. Add cold water and next six ingredients. Cover; bring to boiling point and simmer two and one-half hours. Remove from heat, let stand a few minutes and skim off fat. Bring broth to boiling again and add the cereal, celery, turnip, carrots. Cook 30 minutes. Add tomatoes, peas and potatoes and continue cooking slowly, 25 minutes. Serve hot with plenty of Snow Flake Crackers. Makes 8 servings.

New Cereal Good for Muffins

A hot and hearty breakfast is the answer to a nutritionist's prayer. Zoom, Fisher's new instant - cooking flaked whole wheat cereal, makes it easy now for hurried people to enjoy the kind of breakfast nutritionists recommend. Milled from a top grade of hard red wheat that averages considerably higher in protein than most cereal wheats, Zoom combines the nutritive value of whole wheat with delightful flavor, economy, and instant - cooking convenience. Repeated laboratory and kitchen tests show that Zoom does not lump in cooking, does not stick to the pan, and never "mushes" up. Properly cooked, according to package directions, it keeps a desirable texture an indefinite period of time.

Zoom needn't always take the form of hot cereal. It makes just as nutritious, doubly-delicious muffins, too. Try this tested recipe, using Zoom:

Fisher's Zoom Muffins

Yield: 10 muffins.

- 1 cup Fisher's Blend flour
- 3 teaspoons baking powder
- ½ teaspoon salt
- 1 tablespoon sugar
- 1 cup Fisher's Zoom
- 1 egg
- 1 teaspoon melted butter
- 1 cup milk
- ½ cup raisins or nuts (if desired)

Sift and measure flour. Resift with baking powder, salt and sugar. Then mix with unsifted Zoom. Beat egg until light. Add melted butter and milk. Pour into dry ingredients, mixing quickly until all flour is dampened. Stir in raisins or nuts, if used. Fill well greased muffin pans two-thirds full. Bake at 425 degrees F. 20 to 25 minutes, or until done.

Capella's Estate Valued at $10,400

Estate of John Capella, 82, Redwood City, is valued at $10,400.50, according to an inventory and appraisement filed in superior court at Redwood City by Appraiser Bradford M. Melvin.

The estate consists of personal property and real property in San Joaquin County and in Redwood City. Capella died suddenly in Petaluma Nov. 29. He lef this estate equally to seven nieces and nephews, according to a will written Mar. 14, 1935.

Capella's vineyards once covering much of the Canada are now part of the Spring Valley watershed.

The history of Switzerland as a federated government began Aug. 1, 1921, with a defensive league.

CIVILIAN DEFENSE: Wilsey Warns Against Public Apathy

SAN MATEO—"Public apathy caused by the inactivity of the civilian defense corps and encouraging news from the Pacific battle front is one of the greatest dangers confronting us on the home front," Earl P. Wilsey, chairman of the San Mateo County Defense Council, stated this week.

Wilsey's statement followed remarks given by army officials and CD officials stating that "more than ever before, this coastal area is in danger of a bombing by Japanese forces." Gen. Ulysses Grant III, who visited San Francisco last week, confirmed the fact that high authorities were considerably worried over the unpreparedness of civilians on the West Coast.

Belief that Japan will sacrifice a carrier to bomb this section, if only to carry out her threat of bombing the United States, or in fear of further raids on Tokyo, has been strengthened in the past week by news of a large-scale Japanese offensive aimed at Australia.

Wilsey stated that the alertness which characterized San Mateo County following the Pearl Harbor raid and prevailing through last Summer slumped to a low level when news of victories in the Solomons and in specific naval engagements was told.

San Mateo County residents were urged to combat this apathy by going to their nearest civilian defense council and signing up for the corps.

"Thousands of volunteers are needed. Our ranks have been depleted by men going into the armed forces or defense work," Theodore M. Lilienthal, director of the county organization, stated today.

"Especially needed are wardens, block mothers, auxiliary firemen, policemen, and every unit is in need for further volunteers. The civilian defense corps cannot function effectively unless at full strength, and until every resident of the county is fully cognizant of the ever-present danger of air raids," Lilienthal said.

"Let's not have another Pearl Harbor here. As it was the morning of Dec. 7, we cannot expect the army and navy defensive to be able to cope fully with a situation arising from a surprise attack. On the home front we must be fully prepared—which we are not as yet!" Lilienthal stated.

Cabbage contains from 10 to 15 pounds of water for each pound of dry matter.

There are now 21,000 protected bison in the United States and Canada.

Give double this year if you can.

Point Ration Information

If you're worrying about point rationing, here are a few ideas that will help you. You have your War Ration Book No. 2 . . . one for each member of your family. Have you clipped the *point value charts* from the newspapers? You should and you'll find it will save you time, money and points if you study them at home.

While it's not easy to plan a week's menus complete in every detail, still, do the best you can, the same as you've always done. Now look over your point ration chart and after each rationed item write its point value and see how you're making out. Notice the low point items. These are products which are the most plentiful and will make your points go farther.

If your total number of points is more than your weekly point allowance, better change your menu, and substitute non-rationed fresh fruits and vegetables, or a bowl of home-made soup instead of canned. And if you must use some foods over and over again, vary them by looking up new recipes.

Don't look on the gloomy side . . . we still have several hundred food items that are not rationed . . . from which to build good-tasting, nutritious meals. We'll get used to this idea in no time, just as we did with sugar, coffee and gasoline rationing.

A GOOD BREAKFAST SURE HELPS. IT GIVES HIM ENERGY AND HIS WORK DOESN'T TIRE HIM LIKE IT USED TO—YOU NEED MORE THAN A CUP OF COFFEE THESE DAYS. I'M GOING DOWN TO SAFEWAY TOMORROW—COME ALONG AND I'LL SHOW YOU...

Coffee-Wise

In coffee, it's quality rather than quantity that counts. That's why the coffee-wise are making sure that every cup of coffee they serve offers the very best there is in coffee . . . flavor, aroma, inspiration and sheer taste joy.

To make every cup a super one, choose the brand carefully, make the coffee with meticulous care, and drink it slowly, musing over its goodness. One really delicious cup of coffee is worth any number of inferior cups.

BUYING COFFEE—Get your coffee only as you need it, and your coffee will be fresher. Always be certain to get the right grind for your method of brewing coffee.

Regular Grind for percolator or for boiling . . . **Drip Grind** for drip and vacuum makers. To hold its fragrance and flavor, keep your coffee in a tightly covered can or jar. If bought in packages or bags, pour it into a cannister or fruit jar and keep covered.

A CLEAN POT pays dividends in flavor. Scrub yours well so that there are no specks of old coffee lurking in the basket or in the sides of the pot.

MEASURE ACCURATELY both the coffee and the water, and use standard measures for uniform results. For average coffee strength we suggest 1½ to 2 level tablespoons of coffee for each standard measuring cup of water. (A standard measuring cup equals from 1½ to 1⅔ dinner cups.) However the quantity of coffee to use depends on how strong you like it. You'll not get as good results if you use a large pot for a small amount of coffee. If you want only a small amount of coffee, make it in a sauce pan using the good old-fashioned boiled method. Avoid leftover coffee.

Percolator Coffee—Use either hot or cold water. Start timing when the "perking" begins and "perk" slowly for 7 to 10 minutes.

Boiled Coffee—Add coffee to cold water in pot or sauce pan, let it come to a rolling boil, remove from heat and allow a few minutes for the grounds to settle. Strain and serve.

Drip Coffee—Pre-heat pot. Pour boiling water into top compartment and allow to drip slowly through the coffee. The dripping time should take from 6 to 8 minutes to obtain the peak of flavor and aroma.

Vacuum Coffee—Have water in lower bowl boiling before fitting upper bowl in place. Begin timing when the water rises and comes in contact with the coffee. Control the heat so that the coffee and water are infused together in from 5 to 7 minutes.

Safeway Homemakers' Bureau
JULIA LEE WRIGHT, Director

Prices in this ad are effective Tuesday, Wednesday, Thursday, Friday and Saturday, March 9, 10, 11, 12 and 13, in San Francisco, Oakland, Berkeley, Alameda, Richmond, Hayward and other cities and towns in San Mateo, Alameda, and Contra Costa counties, unless price changes are required as a result of new regulations from the O. P. A.

Why don't you take Sally's advice, too?

You can have fresh vegetables every day . . . if you buy *by the pound* at Safeway. Buying guaranteed-fresh produce by the pound cuts out waste, saves you money, and guarantees you produce that is garden fresh.
